It was a great pleasure to work with Thean during our study in Aarhus Business Academy where we both studied multimedia design. Thean is very creative and has a good eye for visual design. Apart from that he has skills in HTML/CSS and FLASH. We worked together on many projects and it didn't matter what area (marketing, business, design, communication) it was, Thean was always on top of things. When working in a group you cant find a better partner than Thean.
